My grace: Pride I reject commonplace, and dislike vulgar and magnificent decoration.

Passion of life popples

What marvelous is not only shape and structure, because soul shuttles to and fro in space.

Simple style goes with no intentionally outlined elegance, no artificial decoration.

There is no invariable
beauty among
the things
in the world.

*It is the
representative
work of simplicity.*

Simple and elegant space does not require complicated decoration.

Each detail glitters artistic luster
